

We Are Giving "S. & H." Green Trading Stamps

WARREN G. HARDING, President-Elect

—has asked the "Brains of America" to counsel with him, in solving the readjustment problems of the country. Institutions exerting National Influence have been drafted for the aid of both the buying and selling public. The Sperry Discount System, the only Trading Stamp of National Influence, has answered his call and is now at work in Indiana Harbor and elsewhere using its vast organization for the betterment of business conditions.

AS A RESULT—THE FOLLOWING LEADING MERCHANTS OF INDIANA HARBOR ANNOUNCE THE ADOPTION OF THE "S. & H." GREEN TRADING STAMP.

You all know the S. & H. Green Trading Stamp. Your merchants have it and are giving it on all purchases of 10c or more. They recognize your right to a reasonable discount and have adopted this system for the fulfillment of that purpose. They feel that they are giving you far more liberal returns in S. & H. Stamps than would be possible in attempting to discount your purchases in actual money. They have investigated and find that the premiums given are useful and substantial and that you are given your choice from an unlimited stock of standard merchandise. Call on your merchant TODAY and he will furnish you a book in which to keep your stamps. Start the habit of thrift and saving. We must all do our share in helping to get all business conditions back to a normal standing.
